# STRIKE MADE

Six Feet of Thirteen Per Cent Copper Ore Opened on the Three Hundred Level.

BULLION-BECK'S DIVIDEND

PAYMENT OF TEN CENTS A SHARE COMES TOMORROW.

It leaked out yesterday that a whaling big strike of high-grade ore was made in Albion the Carisa company's property on Satur- Alice .. day last. The management has been averse to making the discovery public, for the reason it was anytous to do a day or

averse to making the discovery public, for the reason it was anxious to do a day or two's work in the ore body to see what it was going to amount to.

Asked what foundation there was for the report of the strike yesterday, Manager Sidney M. Bamberger admitted that one had been made and that it had the appearance of being about the most important disclosure recorded in the property for a long time. In a drift east on the 300 level from what is known as the south ore shoot, over six feet of ore has been opened up that, according to mine assays, averages better than 13 per cent copper. That it will ship up to that average Manager Bamberger is not sure, but he expects it to cut close to that figure. The work done since Saturday has shown the shoot to be one of greater importance than was at first supposed. Whether it is a continuation of a shoot opened some time ago in a raise from the 300 level, or whether it is an entirely new fissure has not yet been fully determined, but in any event it is going to produce a big tomage of high-grade ore that will begin to make its presence felt in the market soon.

#### JENNIE COMPANY WINS ADVERSE SUIT

Advices were received yesterday that the adverse suit of R. M. Johnson against the Jennie Gold Mining company, involving a conflict of four acres with the company's Utahline claim, had been decided in favor of the Jennie company, thus clearing title to a valuable portion of the company's ground.

The new hoist at the property is in position and the gallows frame is nearly stion and the gallows frame is nearly completed, while the reports from camp indicate that the new mill will be ready to go into commission and begin the grinding out of gold bullion on the first of the coming month.

Several prominent stockholders in the company have been down making an inspection of the mine and the fact that every one of them has increased his holdings since, shows what they think of the

## CEDAR COMPANY IS

MARKETING FINE ORES

MARKETING FINE ORES

The Cedar Mining company marketed a carload of ore yesterday for which it received net, after deducting railroad, sampling, assaying and smelter charges, \$2,-225.97. There was a little less than thirty tons in the lot, which brought \$72.95 per ton, net. This is the second carload settled for since the first of the month. The previous one brought \$2.163.06 net, making the total receipts from the two cars \$4.389.03. These figures are obtained from the settlement sheets in the company's office and are therefore known to be absolutely correct.

As a prospect Manager Herman Barnett is pardonably proud of the manner in which the Cedar is performing, particularly as every day's development in the grace of the railroad company permitting, will likely be sent out during the coming week.

The announcement of the plan of merger of the Bingham Central at and Bingham Standard companies had the efect of greatly strengthening the shares of the latter company yesterday. The stock sold down to \$4c on Tuesday and it was started yesterday morning at \$7c. From that it was advanced steadily to \$5c at the close of the day. Elly Witch also looked better, selling from \$1.25 to \$1.40 a share, as against a low mark of \$1.10 on Tuesday. Newhouse sold at \$20.50, McDonald Elly at \$1.25 and \$1.20. Jennie, of Gold Springs, at \$5c and Copper Glance at 24½c.

Ohio Copper was at \$5.15 bid. Western Nevada at \$1.35@1.50, Federal Elly at \$1.60 per at \$5c bid, Naildriver at \$9c and Western Pacific at \$600c, New Stockton at \$9c asked. Emma Copper at \$5c bid and Demljohn at \$600c, For Elly Resurrection \$5c was asked, while £ast Cumberland Elly was an offering at 29c. Yerington Ironsides at 25c and New Stockton at \$9c, while 65c was bid for Yerington Copper.

## MINING STOCK EXCHANGE. SILVER KING Share on News From Mine. MERGER PLANS The one feature of business on 'change yesterday was the jump in Carisa from 52c to 61c a share, due to the whisperings of the strike made Saturday last, and which has been carefully guarded. In other respects there was little change in the condition of the market. It was no worse than on the day previous, while here and there were faint suspicions of returning strength. Lower Mammoth and Uncle Sam each fared a little better, while the buying of Daly Judge at \$10 made it appear as though that stock would not be permitted to go below that figure. The one feature of business on 'change

New \$6,250,000 Company Take Over King Bonanza and Other Properties.

COMPANY ISSUES LETTER Midway

During the two regular and open board calls a total of 42,483 shares of stock, with a selling value of \$43,184.75, changed hands, the list of final quotations and record of sales being made as follows: OUTLINES SCHEME AND CALLS MEETING FOR APRIL 10.

> If the Cole-Ryan, the Heinze or the Golden Anchor Jim Butler .... Cash Boy ..... Bid. |Asked. | Bid. |Asked. Bamberger combinations are to get a ck at the Silver King and all of the other acquired interests of that company, including the Kearns-Keith.
>
> McGragor holdings at a trill have McGregor holdings, etc., it will have Silver King company has authorized the issuance of a call for a stockhold-10.12½ 9.87½ 10.12½ 19.00 ..... 17.25 3.25 ...... 3.25 ers' meeting on April 10, at which it is proposed to consolidate all of the Jumbo Extension of the King Jumbo Exte crowd and turn them over to a \$6,250 .-000 company, to be organized under the Goldfield Mining Co. laws of Nevada. In a letter directing K attention to the meeting, President David Keith fully outlines the scheme,

as follows:

"The meeting is called by direction of the board of directors of the comNevada Boy pany to consider and pass upon the advisability of making a consolidation of the holdings of this company with those of the Kearus-Keith Mining company and certain individuals. The details of the very series of the consolidation and the series of the consolidation of the company with those of the consolidation of the company with those of the consolidation of the consol tails of the proposed consolidation and Converor amalgamation of interests will be fully Black B set forth and explained at the stockholders' meeting.

Properties and Acreage Involved.

"As you are no doubt aware, the relitigation between this company and the Magnolia-St. Louis Mining Atlanta company has been settled by the purchase by this company of all the mining property of the Magnolia-St. Louis
Mining company, the Baltimore Mining
company and the Pinyon Ridge Mining
company, as well as the personal holdings of James McGregor. By the purCommonwealth chase of these properties and the settlement of the then pending litigation, the Silver King Mining company has added to its holdings a large number of mining claims, aggregating approximately 505 acres. If the proposed consolidation shall be effected, the aggressolidation shall be effected, the aggressolidation shall be effected, the aggressolidation shall be effected by the commonwealth Com gate number of acres owned by the consolidated company would be ap-

#### proximately 1,665 acres. New \$6,250,000 Company.

"In order to effect the consolidation, under the laws of the state of Nevada, a corporation to be called the Silver King Amalgamated Mines company, with a capital stock of \$6,250,000, divided into 1,320,000 proposed to form and organize, vided into 1,250,000 shares of the par value of \$5 each; such shares to be fully

Kearns-Keith company \$1,500,000 of the capitalization of the new company for its holdings, which would be at the North Star rate of \$7.50 for the 200,000 shares of outstanding stock of this company. "For what is known as the Adder group, contiguous to the property of the Silver King and Kearns-Kelt companies, it is proposed to allot \$75, 000 of the capitalization of the new company, or 15,000 shares. And for te claims, aggregating approximately is acres, now owned by Thomas Kearn it is proposed to allot \$75,000 of the cap italization of the new company, or 15

000 shares. "It is also proposed to allot the so called McGregor holdings, \$500,000 of the capitalization of the new company This amount to be represented by 100 000 shares of the new company's stoc This 100,000 shares of the capital stoc of the new company it is proposed to sell and dispose of at par in order to meet at once the deferred payments upon the purchase price of the so-called

#### STOCKS ON EXCHANGE McGregor holdings. .

Why Dividends Were Suspended. "As you are aware, it is part of the contract with respect to the purchase of the McGregor holdings, that no dividends shall be paid by the Silver King company, or any company succeeding to its property rights, until the entire purchase price for the McGregor holdings shall have been paid. By the disposition of this 100,000 shares of stock at par, the entire purchase price for

tion as to them seems proper, and make any suggestions concerning the proposed consolidation as they may

proposed consolidation as they may deem fit.

"If the properties are consolidated, as outlined above, all litigation, which is not only annoying but very expensive and detrimental to the property, will be practically eliminated, as the company's possessions will be so large and so safeguarded that conflicts would seem to be practically impossible.

"It is desirable that there be as full an attendance as possible at the stockholders' meeting, where all the foregoing subjects will be considered and passed upon, and you are earnestly requested to be present. If you cannot be present, send your proxy to some location in the mountains east of Provo, and to carry the gas to Salt Lake in pipes. There is filed with the Tel. Bell 792.

e in Salt Lake City to represent you. Respectfully yours. "DAVID KEITH, President."

#### **BULLION-BECK POSTS** DIVIDEND OF \$10,000

The directors of the Bullion-Beck & at par, the entire purchase price for the holdings will be met and a fund a fund afforded for the resumption of dividends at once. This plan is deemed and payment will be made tomorrow. It anoroed for the resumption of dividends at once. This plan is deemed most advantageous for the reason before stated that dividends may be resumed without delay.

"After making these allotments, there would remain of the capitalization of the proposed new company \$350,000, or 70,000 shares.

Stockholders Asked to Investigate.

"Any stockholders of either the Silver King company, the Kearns-Keith company or any individual owner of any of the properties proposed to be conveyed to the new company, has the right and privilege to make such examination as he shall deem fit to ascertain whether or not the terms of the proposed consolidation are just and proper. And it is the wish and desire of the officials of this company that the stockholders make any such examination as to them seems proper, and make any suggestions concerning the

## ROUNDING OUT CEMENT

Lamson deed a deed from Snow to Lam-

Lamson deed a deed from Snow to Lamson.

The gas project fell through for some reason, and Mr. Lamson has had men at work here for several months doing assessment work on the claims and securing additional ground. He has been reticent in giving out details of his intentions regarding the property, except that the limestone deposits would be used in the manufacture of cement, for which a large plant would be erected in Provo canyon. It has been understood that Lamson represented eastern capital, and he went east a few weeks ago to confer with the people interested with him. The deeds sent here from New York for record mark another step in the project, which will prove of immense advantage to Provo and the state. The projected site for the cement works is in Provo canyon, on the line of the Heber branch of the D. & R. G., and the limestone claims extend from Provo canyon, south to Slaims extend from G., and the limestone claims extend from Provo canyon south to Slate canyon.

#### SEVEN TROUGHS OPERATOR ON THE NEW CAMP

Provo, March 13.—L. A. Friedman of the Seven Troughs and the Kindergarten Mining companies is here to attend a meeting of the directors. Mr. Friedman meeting of the directors. Mr. Friedman brings most encouraging reports of the Seven Troughs district and of the mines in which he is interested. The car of ore shipped to Salt Lake from the Kindergarten brought \$8,000. This was taken from the shaft in a distance of sixty feet, and from the vein without sorting. In addition to this the company has a dump of milling ore that will run from \$26 to \$40 a ton, which will be treated in a large mill to be erected this summer. Another car of shipping ore from the Kindergarten is now being made up at Lovelock. The owners think so well of the preperty that they have taken up all of the treasury stock and stock in this mine will hereafter have to be bought in the open market.

after have to be bought in the open market.

The Seven Troughs mine is also giving a good account of itself and attracting attention from Nevada mining men, as is shown by the fact that the directors have let four leases on the property, one to Monnett & Truett, the noted Mohawk leasers, who have organized the Seven Troughs Gold Mining & Leasing company to operate the lease; another to W. T. McNeely, one to Milton M. Detch and the fourth to N. P. Kaylor, who represents New York capital, and there are two or three other leases applied for. These leases are for fitteen months, and the leasers have ordered gasoline hoists and will prosecute the work with all possible vigor. One of the terms of the leases is that all ore which does not come up to the shipping standard belongs to the company and will be worked in the company's mill to be erected, together with the low grade ore from the company's own workings and from the Kindergar. \* the low grade ore from the company's own workings and from the Kindergar

ten.

The Seven Troughs company has reserved sufficient ground to be operated by the company from its present shaft, which is now down 125 feet, the last ten feet in sulphides, and is being sunk at the rate of six feet a day. The company has a gasoline hoist in operation and is conducting as vigorous a campaign as conducting as vigorous a campaign as possible, with the most gratifying indica-

#### COPPER STOCKS IN BOSTON AND NEW YORK

Following is the daily market comment Following is the daily market comment of Paine, Webber & Co., Boston, together with the range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar report on New York curb transactions, a feature that has just been added by James A. Pollock & Co., to its private wire service, and from which it is secured for use in this department of The Herald.

Boston, March 13—What do you think

Boston. March 13.—What do you think of our advices now? We have been con-sistent bears for three weeks; stacks have sistent bears for three weeks; strcks have dropped from ten to twelve points in that time with hardly a rally. The market was almost a panie today, selling being very urgent. We think tomorrow will be low day for some time and would advise moderate purchases of stocks, especially the good dividend-paying coppers, such as Copper Range, North Butte, Shannon, Amalgamated and Mohawk.
